## go fish

This sea-inspired plait can be perfectly neat or purposely messy. Wear it down low or to the side, either way the fishtail braid is perpetually high fashion.

## crowning glory

Channel your inner bohemian babe with this free-spirited braid wrapped around the crown. A must-do for flowy summer dresses or long walks on the beach.

## fall in love

Paired with curls or the classic blow out, the waterfall braid is perfect for your next summer soirée or sipping vino pool-side.
